

WILL YOUR HEALTH BENEFITS BE GONE WITH THE WIND?

Enjoy your FSA benefits
before the end of the year

VISION-RELATED SERVICES AND EXPENSES THAT MAY QUALIFY FOR REIMBURSEMENT:

- Second pair
- Specialty adaptive eyewear (Transitions)
- Routine eye exams
- Prescription eyewear
- Prescription sunglasses
- Contact lenses (annual supply)

If you participate in a flex spending account through your employer's cafeteria plan, your opportunity to enjoy your benefits might be disappearing like the autumn leaves. Many plans require that you spend your benefit dollars by December 31 or risk losing them.

Talk to our staff about your major medical and vision plan coverage and we'll make sure you use your benefits before they are gone with the wind!

Comprehensive eye exams can also provide early detection to health issues such as diabetes, high cholesterol and hypertension. Schedule your annual exam before year's end.
