KNOW THE FACTS +

WEARING PROTECTIVE EYEWEAR COULD PREVENT UP TO 90% OF EYE INJURIES AT HOME.

For that reason, we recommend wearing **ANSI-APPROVED SAFETY GLASSES** when performing activities such as:

- Mowing and trimming
- Using hazardous chemicals & cleaners
- Operating power tools
- Spreading fertilizer

If you don't require vision correction, or if you wear contact lenses, you can purchase **ANSI-APPROVED SAFETY GLASSES** at hardware stores or home improvement centers. For those who require correction, our office can prescribe prescription safety glasses that meet ANSI standards.
