July 2018

Extraordinary eye care
provided by extraordinary
eye care professionals.

KNOW THE FACTS +

A sparkler burns at 1800 degrees Fahrenheit.
Imagine what it can do to a child's eyes.

45% of fireworks-related injuries occur to children under the age of 14, and every year, **400 AMERICANS LOSE SIGHT IN ONE OR BOTH EYES DUE TO FIREWORKS.** Celebrate safely this 4th of July. Leave fireworks in the hands of professionals.
