

HELP YOUR CHILD LEARN

IT'S ALL ABOUT VISION

NOTE:

“ 1 IN 4 CHILDREN WILL GO BACK TO SCHOOL THIS YEAR WITH AN UNDIAGNOSED VISION PROBLEM. ”

VISION & LEARNING

KNOW THE FACTS +

LEARNING IS ALL ABOUT VISION: 80% OF WHAT A CHILD LEARNS IN SCHOOL IS PRESENTED VISUALLY.

Unfortunately, studies show that only 31% of children ages 6-16 have an annual eye examination, and 70% of children under 6 have never had an eye exam.

As a result, 1 in 4 children will go back to school this year with an undiagnosed vision problem that could interfere with learning. Give your child the advantage that comes from good vision. Schedule a comprehensive eye examination in our office today.
